

## *Better days*

Lookin at the world, so helplessly  
feelin powerless against all this cruelty  
we're like witnesses at our own trial  
Guilty as charged, waiting for the fall

but better days are coming  
if we re eager to right the wrong

know that we wont stop those wars but a little care  
would do  
know we wont feed all the children but a helping hand  
would do  
know we wont heal the sick and dying but a little  
share would do  
know we wont sack all the tyrans, but we should be  
concerned too

cause better days are coming  
we re eager to right the wrong
